

BULK MATERIAL HANDLING SYSTEMS

Company Presentation

"Single Point of Responsibility at the Service of Industry"

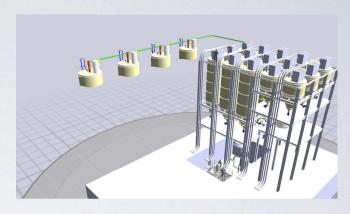

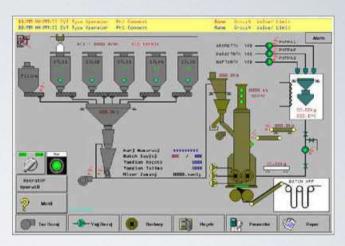

Mechanical Design, Manufacturing & Assembly

Software / PLC
Programming
Commissioning &
Technical Service

Procurement of Industrial Electrical, Automation & Instrumention Equipment

E.M.C.

1982

1974

1983-2018

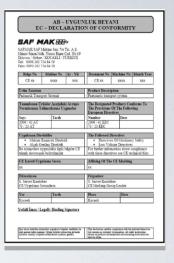

ISO 900 I SIEMENS PARTNER FESTO PARTNER CE CERTIFICATE

MAIN BUSINESS SUBJECT

Complete system solutions including design, production and automation in the field of

BULK MATERIAL HANDLING SYSTEMS & PROCESS AUTOMATION

for different industries such as plastics, glass, rubber, food, chemicals, steel, mining...

BIG BAG FILLING MACHINES

Filling big bags up to 2 tons.

BIG BAG DISCHARGE MACHINES

Dust free dicharging according to weight.

BAG FILLING MACHINES

Filling bags from 15 kg to 50 kg accurately.

LIQUID FILLING MACHINES

Filling tins, drums and IBC accurately.

PNEUMATIC TRANSPORT SYSTEMS

Dense, Dilute and Vacuum Transport systems.

BATCH DOSING SYSTEMS

Recipe based dosing systems.

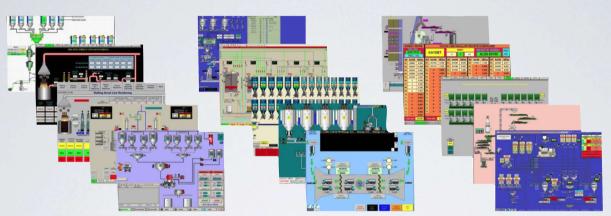

CONTINUE DOSING SYSTEMS

Loss in weight and weigh belt feeder applications.

PLC and SCADA systems.

BAG DISCHARGE UNITS

Effective and Dust Free Bag Discharge Units

SIFTER UNITS

Pneumatic Sentrifuge & Vibro Sifter Units

ELEVATORS

Z Type & Vertical Bucket Elevators

DEDUSTING SYSTEMS

Stand Alone & Central Filtering Units
